SOME TIPS FOR SUCCESS

- * The online application is **APPLICANT DRIVEN**, so be sure to provide accurate personal identifiers, telephone numbers, and email addresses.
- * You will be receiving automated email updates throughout this new process
- * If an INITIAL applicant applied for an FID card and forgot to apply for pistol purchase permits, the applicant must re-apply for the pistol purchase permits AFTER their initial application is processed and approved
- * Please advise your references that the FARS system will email the reference questions to be answered. **Please advise them to complete the questions immediately to progress your background investigation.**
- * All first time applicants must be fingerprinted by the NJSP designated contractor. Information regarding fingerprints is included in the automated confirmation email sent to you by the system after submitting your application
- * If you are required to be fingerprinted, you must do so within 90 days of submitting your application. Failure to do so will result in your application being purged, and you will have to begin the process over.
- * If you have already been fingerprinted for firearms purposes in New Jersey, you will need to include your State Bureau of Identification (SBI) number in the application process. Your SBI number is six numbers and one letter (example 123456A) and can be found next to "NUMBER" on your NJ Firearms Purchaser Identification Card.
